

To use the **Turnitin Service**, check the box in front of **Use Turnitin (3)**. You can optionally check **Allow students to review report (4)**.

### Turnitin Service

**3**  Use Turnitin

*NOTE, If using Turnitin:*

1. "Student Submissions" must be set to "Single Uploaded File only."
2. Tell students:
  1. Submit only one attachment.
  2. Only use file types: Word, PDF, HTML, RTF, or plain text.
  3. Always include file extension.

Submit papers to the following repository:

- None  
 Standard Paper Repository

Generate originality reports:

- Immediately  
 On Due Date

**4**  Allow students to view report

Check originality against:

- Turnitin paper repository  
 Current and archived internet  
 Periodicals, journals, and publications

Once you've posted the assignment, you'll return to the **Assignment List (5)**. Click the **Grade** link **(6)** for the assignment in question, and you'll see a new column showing the status of each student's **Turnitin report (7)**.

# Student Assignment Submission

Students may submit their assignments to Turnitin as file attachments. The following file types are acceptable: Word (.doc, .docx), WordPerfect (.wpd), Postscript (.ps), PDF (.pdf), HTML(.htm, .html), RTF (.rtf), or plain text (.txt), and the file size may not exceed 20 MB. Once the assignment is submitted, students receive a feedback page as well as an email receipt from their Sakai course confirming their assignment submission.

## Reviewing the Turnitin Originality Report

Originality Reports may take as long as 10 to 20 minutes to be created after an assignment submission. You can check the status of a student report under the **Turnitin column** of the assignment grading view (7). A completed report will be illustrated as a report icon. Clicking the icon opens a new window with the **Turnitin Originality Report (8)**.

Finally, Turnitin provides an training video for instructors entitled “**Viewing Originality Reports**” for navigating and interpreting the report:

[http://www.turnitin.com/en\\_us/training/instructor-training/viewing-originality-reports](http://www.turnitin.com/en_us/training/instructor-training/viewing-originality-reports)\*\*

\* When using Turnitin, allowing the resubmission of assignments yields indeterminate results for which originality report is returned to Sakai. You can however enable resubmissions, assuming collaboration with your students per the steps described in this [video tutorial](#).

\*\* Note that this training video begins with a screen from turnitin.com which persons using Sakai to create Turnitin Originality Reports will never see or use, because the Originality Reports are instead accessed from the report icon (7) on the assignment grading view in Sakai mentioned above.

The screenshot displays the Turnitin interface for an originality report. At the top, there are tabs for 'Originality', 'GradeMark', and 'PeerMark'. The document title is 'Sakai Developer Logging' by Sean A. Horner. The Turnitin logo and a similarity score of 97% (OUT OF 0) are visible. A 'Match Overview' sidebar on the right shows a match for 'Submitted to Pacific L... Student paper' with a 97% similarity score. The main content area shows the document text with a red circle containing the number '8' in the top left corner. The text includes a title 'Sakai Developer Logging', a date 'March 23, 2005', and a request to direct questions to a specific person. The text is highlighted in red, indicating matches with the source material. The bottom of the interface shows a page number of 1 of 4 and a 'Text-Only Report' button.
